

EVENT ITEMS 2025

ABOUT US

Our accessories will help your event to stand out from the crowd. No matter which target group you try to reach – products which make sense and fulfill a function are always positively accepted and will benefit the image of your event. Ideally our products will have a positive impact on your event. This is why many well-known german and european events are our customers for years. From movie awards to huge music events but also small local events or company parties. Thanks to our own production and high stock availability, we have very short delivery times.

Every event's objective is to stand out from other events and to offer every single guest something special – consistently from the admission to the encore. Doing this we are a reliable partner and supporter at your side. Unlike impersonal mass productions our articles are specifically tailored to your individual requirements.

By designing our products not for but together with you we attempt to meet your expectations. We guarantee a full service around the product - from the graphical service in advance to the finished product and its delivery.

Whether you have already found the right product or if you have a whole new challenge for us, we would like to assist you at your next event.

We are looking forward to your inquiry!
